

# Customized education and consulting solutions to meet your needs

## Risk Management Services

### In-service Education

Risk management visits are an opportunity to provide your staff with continuing education credits on-site and on practical topics of direct interest to your facility and staff. Education topics cover:

- Administration
- Elopement
- Documentation
- Medication Management
- Side Rails & Assist Devices
- Environmental
- Wound, Skin & Nutrition
- Assisted Living Specific

HealthCap Risk Management Services is approved by the ANCC as a provider of continuing education for licensed nurses.

preferred provider of liability insurance

### Risk Consulting

Let HealthCap's experts advise your facility on the effective implementation of consistent, high quality risk management and loss control practices.

#### ON-SITE Assessments

A pre-visit analysis to optimize our time on site. Expert consultants analyze clinical, organizational, and management related risks at your facility.

#### Risk Assessment Reports

Implement detailed checklists designed to identify major risk areas and quantify performance measures to track progress.

#### Remote Consultation

HealthCap clients always have access to their risk management expert for phone consultations.

### Best Practices

Included with every policy, clients have access to our library of risk management best practices covering a variety of operational and clinical functions: administration, background checks, disaster preparation, environmental safety, product safety, regulatory issues and resident care and safety.

### Seminars

Regional seminars bring together experts and facility leadership in a forum that provides NAB/NCERS continuing education credits. HealthCap members get free attendance for administrators and DONs.
